ABOUT

AI-native creator with 2+ years of experience transforming complex information into compelling, platform-native content. Skilled in script writing for YouTube, Shorts, Reels, and LinkedIn, with a strong foundation in prompt engineering and AI-driven content workflows using ChatGPT, Claude, Gemini, Perplexity, and NotebookLM. Adept at simplifying robotics, AI, and technical topics into clear, engaging narratives that educate and inspire. Experienced in building content frameworks, prompt libraries, and automated production pipelines that scale attention and clarity across modern digital platforms.

WORK EXPERIENCE

CLOUDPIXELS CONSULTANCY SERVICES

| **Content & Narrative Associate** · Jan 2024 - Mar 2026 (2 years 2 months)

Developed content frameworks, wrote scripts, and automated AI-driven content workflows across digital platforms. Transformed complex data and technical updates into accessible stories for diverse audiences. Built prompt libraries and AI content workflows using ChatGPT, Claude, and Gemini to scale production. Wrote YouTube video scripts and short-form content (Shorts, Reels, LinkedIn) that simplified technical concepts. Developed content frameworks and storytelling systems for consistent brand narrative across channels. Transformed intelligence reports and data into compelling educational content for general audiences. Used Airtable, Make, and Zapier to automate content distribution and repurposing workflows.

Content Production Intern · Jun 2023 – Dec 2023 (7 months)

Supported content planning, audience research, and script drafting while learning AI-native content creation workflows. Assisted with script research and drafting for educational content series. Learned prompt engineering techniques across ChatGPT, Claude, and Gemini. Supported audience engagement analysis to refine content strategy. Helped build initial prompt libraries for recurring content formats.

PROJECTS

Tamil Calendars 365 – Content & Audience Platform · Aug 2025 – Mar 2026

Developed content strategies and scripts to explain platform features, usage insights, and cultural relevance to broad audiences across YouTube, Shorts, and social channels.

- Created explainer video scripts that simplified technical features for non-technical users.
- Built AI workflows using NotebookLM and Perplexity to research and draft audience-tailored content.
- Developed short-form content scripts highlighting daily engagement patterns and user stories.
- Automated content repurposing across platforms using Make and Zapier.

Christian Community Multimedia App – Content Production · Mar 2024 – Oct 2025

Led content scripting and narrative development for a multimedia platform, transforming platform updates and user stories into engaging digital narratives across video and social formats.

- Wrote video scripts and social content that made platform features accessible and engaging.
- Used prompt engineering to rapidly prototype content variations for A/B testing.
- Developed content frameworks that maintained consistent tone across YouTube, email, and social channels.
- Created educational guides and tutorials that reduced support inquiries through clear explanation.

Company Portal & TNPSC Prime Website · Jun 2023 – Aug 2023

Produced informational content and scripts that translated complex educational and exam-related information into clear, actionable guidance for students.

- Researched and wrote educational content that simplified exam processes and navigation.
- Developed content structures that improved information findability and user comprehension.
- Created concise written and video-ready summaries of complex topics.

EDUCATION

Master of Computer Applications (MCA)

Jain University (Online)

Currently pursuing | Expected graduation: 2026

Bachelor of Science in Computer Science

Islamiah College (Autonomous)

CGPA: 7.89/10 | Graduated: 2022

CERTIFICATIONS

Full Stack Development Certification – SmartCliff Learning Solutions (2023)

SQL (Intermediate) – HackerRank Skill Certification (Issued Mar 2025)
