ABOUT

Technical support professional with hands-on experience at CloudPixels Consultancy Services. Strong in first-line troubleshooting, ticket handling, and guiding users through common desktop, account, and connectivity issues. Comfortable documenting incidents clearly, escalating complex problems with context, and keeping users informed until resolution. Brings a calm, customer-focused approach to service desk work and daily IT operations. Also experienced in following support workflows and maintaining accurate response records.

WORK EXPERIENCE

CLOUDPIXELS CONSULTANCY SERVICES

- L1 Support Engineer** · Jan 2024 – Mar 2026 (2 years 2 months)
Handled first-line support requests, resolved common desktop and account issues, and guided users through standard troubleshooting steps. Logged and prioritized tickets to keep incidents moving through the queue. Resolved password, access, printer, and connectivity issues through structured troubleshooting. Escalated unresolved cases with complete notes and clear impact context.
- IT Help Desk Trainee** · Jun 2023 – Dec 2023 (7 months)
Supported the service desk with ticket logging, user follow-up, and basic troubleshooting for internal teams. Documented recurring issues and resolution steps for reference. Assisted users with account setup and device onboarding tasks. Maintained clear communication until cases were closed.

PROJECTS

Real-Time Online Compiler Platform · Sep 2023 - Feb 2024

Supported a browser-based execution platform by monitoring environment health and helping resolve user-facing setup issues.

- Checked service status and helped isolate environment-related issues.
- Worked with Docker-based workflows to keep deployments consistent.
- Documented recurring incidents to speed up future support.

Christian Community Multimedia App · Mar 2024 - Oct 2025

Helped maintain a user-facing content platform by keeping support requests organized and escalating technical issues clearly.

- Tracked playback and access issues reported by users.
- Coordinated with developers to confirm fixes and follow-up actions.
- Improved issue documentation for faster resolution cycles.
