ABOUT

Operations-focused professional with 2+ years of experience supporting executive-level coordination, performance analysis, and project delivery. Skilled in preparing executive briefings, building dashboards and reports for data-driven decision-making, tracking operational KPIs, and coordinating cross-functional initiatives. Comfortable liaising with senior stakeholders, managing action item follow-ups, and maintaining governance documentation. Brings strong analytical capabilities and a structured approach to supporting regional operations and strategic priorities.

TOOLS & SKILLS

Executive & calendar management
Operations analysis & reporting
Performance dashboard development
Stakeholder communication & liaison
Project coordination & tracking
Meeting preparation & follow-up
Process documentation & SOPs
Data analysis & insights (Excel, Power BI)

WORK EXPERIENCE

PROFESSIONAL SERVICES FIRM

| Executive Assistant · 2 years 2 months

Provided operational and analytical support to senior leadership, coordinating executive calendars, preparing meeting packs, and tracking follow-up actions across multiple projects. Built dashboards and reports to monitor performance metrics, identify trends, and support data-driven decision-making. Prepared executive briefings, presentations, and meeting packs for strategic discussions and stakeholder engagements. Built recurring dashboards and reports to track operational KPIs and performance trends across initiatives. Coordinated cross-functional projects, tracking milestones, risks, deliverables, and action items to ensure timely completion. Acted as liaison between leadership, internal teams, and external stakeholders to maintain alignment on priorities. Maintained governance documentation, meeting minutes, and project records to support effective oversight.

| Operations Assistant · 7 months

Supported operational reporting, data preparation, and coordination tasks while learning structured workflows for executive support and project tracking. Assisted with data collection, validation, and preparation for recurring operational reports. Supported meeting coordination, documentation, and follow-up tracking across teams. Helped maintain project records, SOPs, and process documentation.

PROJECTS

Enterprise Mobile & Web Platform · 8 months

Supported operational analysis and reporting for the platform, tracking engagement metrics, content performance, and user adoption trends to inform planning decisions.

- Built Power BI dashboards to monitor daily usage, page views, and content engagement across the platform.
- Prepared executive summaries and trend analyses to support planning and resource allocation decisions.
- Tracked action items and milestones for content updates, coordinating with cross-functional teams to meet deadlines.

Community Multimedia Platform · 19 months

Provided operational analysis and project coordination for a multimedia platform, tracking performance metrics and supporting stakeholder reporting.

- Developed dashboards to track user engagement, content performance, and traffic source trends.
- Consolidated platform insights into clear, concise reports for leadership review and strategic discussions.
- Coordinated cross-functional deliverables, tracked project risks and dependencies, and maintained issue documentation.
