ABOUT

Detail-oriented Fraud Operations professional with experience at CloudPixels Consultancy Services. Strong in data validation, anomaly detection, transaction review, and clear documentation for investigative workflows. Careful with details and able to keep review notes structured for escalations. Comfortable identifying irregular patterns across datasets and surfacing suspicious activity early. Experienced in using SQL and Excel to query, reconcile, and analyze transaction data for fraud indicators.

TOOLS & SKILLS

- Fraud detection
- Transaction monitoring
- Data validation
- SQL
- Excel
- Pattern recognition
- Reporting & documentation
- Attention to detail

WORK EXPERIENCE

CLOUDPIXELS CONSULTANCY SERVICES

- Fraud Operations Analyst** · Jan 2024 - Mar 2026 (2 years 2 months)
Reviewed transactions and account activity for suspicious patterns, validated data integrity across sources, and documented findings to support fraud investigations. Analyzed transaction data to identify unusual patterns and potential fraud indicators. Validated records and checked data consistency across multiple sources. Documented findings and prepared clear investigation notes for escalation. Supported recurring monitoring checks with accurate reporting and follow-up.
- Fraud Operations Trainee** · Jun 2023 - Dec 2023 (7 months)
Supported transaction review workflows, spreadsheet reconciliation, and summary preparation for senior investigators. Assisted with transaction data reconciliation and discrepancy checks. Supported query-based reviews to identify irregular activity. Prepared summary notes and documentation for supervisory review.

PROJECTS

Tamil Calendars 365 - Mobile & Web Platform · Aug 2025 - Mar 2026

Reviewed exported datasets for missing values, sudden activity spikes, and inconsistent records that could indicate anomalous behavior.

- Checked exported datasets for missing, duplicate, or inconsistent values.
- Flagged sudden spikes or drops in activity for further review.
- Maintained clean, auditable inputs for recurring reporting cycles.

Company Portal & TNPSC Prime Website · Jun 2023 – Aug 2023

Compared weekly activity snapshots to identify outliers and maintain consistent monitoring practices.

- Compared datasets across time periods to detect unusual changes.
- Highlighted anomalous patterns in page activity for investigation.
- Documented findings in a clear, repeatable format for team reference.
