ABOUT

Experienced Software Engineer with 2+ years of hands-on experience in mobile and web application development. Proficient in Flutter, React.js, Node.js, and full-stack development with a strong background in scalable architectures, API integration, database design, and agile delivery. Proven track record of shipping production systems such as Tamil Calendars 365, a real-time online compiler platform, and a cost-efficient audio streaming app for a non-profit community. Strong problem-solving skills with the ability to debug complex issues and optimize application performance for better scalability and user experience. Experienced in working with modern development workflows including Git, CI/CD pipelines, and collaborative agile environments.

TOOLS & SKILLS

Flutter & Dart
React.js & Next.js
Node.js & Spring Boot
REST API Development
SQL & Database Design
Docker & Kubernetes
Supabase
Power BI & Python

WORK EXPERIENCE

CLOUDPIXELS CONSULTANCY SERVICES

- I

Associate Software Engineer · Jan 2024 – Mar 2026 (2 years 2 months)

Developed comprehensive mobile and web applications serving thousands of users globally, driving digital transformation initiatives across multiple platforms. Contributed to cost optimization strategies, performance enhancements, and scalable solution architecture. Led cross-platform development projects while consistently exceeding performance targets, delivering innovative solutions ahead of schedule, and collaborating with cross-functional teams to translate business requirements into reliable production-ready software.
- I

Internship Trainee · Jun 2023 – Dec 2023 (6 months)

Designed and developed foundational web infrastructure and content management systems for organizational digital presence. Contributed to process automation, API development, and cost reduction initiatives. Built responsive web solutions while gaining hands-on experience in full-stack development methodologies and agile project delivery, and supported senior engineers in feature implementation, testing, and issue resolution across active projects.

PROJECTS

Tamil Calendars 365 - Mobile & Web Platform · Aug 2025 – Mar 2026 (8 months)

Led the end-to-end delivery of a cross-platform calendar platform that made localized date, festival, and event information more accessible to users on mobile and web. Focused on building a reliable, easy-to-navigate product with strong performance and maintainable content workflows.

- Built **mobile and web experiences** for daily calendar insights, festival schedules, and **user-friendly navigation**.
- Integrated **multiple calendar systems** to keep date and event information **synchronized across platforms**.
- Optimized **performance** to improve **load times** and reduce memory usage on a wide range of devices.
- Developed **responsive interfaces** that delivered a **consistent user experience** across mobile and desktop screen sizes.
- Streamlined **content maintenance workflows** for recurring festival and event data updates.

Christian Community Multimedia App · Mar 2024 – Oct 2025 (19 months)

Designed and delivered a community-focused multimedia application for streaming sermons, videos, and shared digital resources in a single platform. Emphasized dependable media delivery, secure user access, and a simple content experience for recurring community engagement.

- Developed a **scalable application** that organized audio, video, and supporting community content in **one unified platform**.
- Integrated **external media services** to simplify publishing workflows and **centralize content delivery**.
- Implemented **secure authentication** and access flows to improve reliability for protected user features.
- Optimized **storage and delivery** choices to reduce infrastructure costs while maintaining **stable playback quality**.
- Supported **recurring streaming demand** with dependable performance and **intuitive content discovery**.

Real-Time Online Compiler Platform · Sep 2023 – Feb 2024 (6 months)

Built a real-time code execution platform that allowed users to write, run, and review code directly in the browser with fast feedback. The solution combined responsive frontend tooling with containerized backend execution to support scalability, isolation, and consistent deployments.

- Developed a **full-stack interface** for writing, executing, and reviewing code in **real time**.
- Added support for **multiple programming languages** through isolated and **containerized execution environments**.
- Implemented **WebSocket-based updates** to deliver **low-latency feedback** for execution status and output.
- Improved **deployment consistency** by standardizing services and environments with **Docker**.
- Designed backend workflows to handle **concurrent execution requests** with reliable isolation and stability.

Company Portal & TNPSC Prime Website · Jun 2023 – Aug 2023 (3 months)

Delivered content-driven web platforms that supported both organizational communication and exam-focused digital publishing needs. The work centered on responsive user interfaces, efficient content delivery, and scalable backend support for frequently updated pages.

- Built **responsive user interfaces** for company and education-focused portals with clear content presentation.
- Developed **backend APIs** and **dynamic page generation** flows to publish large volumes of content efficiently.
- Improved **user experience** through better information structure, readability, and navigation.
- Reduced **hosting and operational overhead** by selecting cost-effective deployment and data delivery approaches.

- Delivered the platforms **ahead of schedule** while meeting functional and presentation requirements.

EDUCATION

Master of Computer Applications (MCA)

Jain University (Online)

Currently Pursuing | Expected Graduation: 2026

Bachelor of Science in Computer Science

Islamiah College (Autonomous)

CGPA: 7.89/10 | Graduated: 2022

CERTIFICATIONS

- Full Stack Development Certification - SmartCliff Learning Solutions (2023)
- SQL (Intermediate) - HackerRank Skill Certification (Issued Mar 2025)
- SQL Basics - HackerRank Skill Certification (Issued Jan 2025)
